Overview

Explore a best-practice framework for conducting internal investigations, on which organizational policies, procedures, and work rules can be developed and anchored. Practice investigation skills techniques through a case study that runs through the entirety of the program.

Objectives

- Communicate a best-practice process framework for conducting internal investigations, on which organizational policies, procedures, and work rules can be developed and anchored
- Employ tactics to mitigate the risks of employment-related litigation
- Develop HR policies, process, procedures, and work rules that will result in a more appreciative, engaged, and productive workforce
